

KCC 4742 (K-C 14,442A)
PATENT

Listing of Claims:

1. (Previously Presented) An absorbent article for absorbing body waste, said article comprising:
 - a permeable liner having a body-facing surface oriented for facing a wearer when the absorbent article is worn and an absorbent-facing surface opposite the body-facing surface;
 - an outer cover;
 - an absorbent body positioned between the liner and the cover for absorbing body waste penetrating the liner; and
 - a Yucca species extract positioned between the body-facing surface of the liner and the outer cover.
2. (Previously Presented) An absorbent article as set forth in claim 1 wherein the Yucca species extract is applied to the absorbent-facing surface of the liner.
3. (Previously Presented) An absorbent article as set forth in claim 2 wherein a composition comprising said Yucca species extract is applied to the absorbent-facing surface of the liner.
4. (Previously Presented) An absorbent article as set forth in claim 3 wherein the composition comprises at least about 0.001 percent Yucca species extract by weight.

KCC 4742 (K-C 14,442A)
PATENT

5. (Previously Presented) An absorbent article as set forth in claim 4 wherein the composition comprises at least about 0.01 percent *Yucca* species extract by weight.
6. (Previously Presented) An absorbent article as set forth in claim 3 wherein the composition comprises less than about 1.0 percent *Yucca* species extract by weight.
7. (Previously Presented) An absorbent article as set forth in claim 2 wherein the *Yucca* species extract comprises *Yucca schidigera*.
8. (Currently Amended) An absorbent article as set forth in claim 7[[2]] wherein a composition comprising said *Yucca schidigera* is applied to the absorbent-facing surface of the liner.
9. (Original) An absorbent article as set forth in claim 8 wherein the composition comprises at least about 0.001 percent *Yucca schidigera* by weight.
10. (Original) An absorbent article as set forth in claim 9 wherein the composition comprises at least about 0.01 percent *Yucca schidigera* by weight.
11. (Original) An absorbent article as set forth in claim 8 wherein the composition comprises less than about 1.0 percent

KCC 4742 (K-C 14,442A)
PATENT

Yucca schidigera by weight.

12. (Previously Presented) An absorbent article as set forth in claim 1 wherein the *Yucca* species extract is held by the absorbent body.

13. (Previously Presented) An absorbent article as set forth in claim 12 wherein the absorbent body includes opposite outer faces and the *Yucca* species extract is held within the body between the outer faces.

14. (Previously Presented) An absorbent article as set forth in claim 12 wherein absorbent body includes opposite outer faces and the *Yucca* species extract is applied to at least one of said opposite outer faces of the absorbent body.

15. (Previously Presented) An absorbent article as set forth in claim 12 wherein a composition comprising said *Yucca* species extract is held by the absorbent body.

16. (Previously Presented) An absorbent article as set forth in claim 15 wherein the composition comprises at least about 0.001 percent *Yucca* species extract by weight.

17. (Previously Presented) An absorbent article as set forth in claim 16 wherein the composition comprises at least about 0.01 percent *Yucca* species extract by weight.

KCC 4742 (K-C 14,442A)
PATENT

18. (Previously Presented) An absorbent article as set forth in claim 15 wherein the composition comprises less than about 1.0 percent *Yucca* species extract by weight.

19. (Previously Presented) An absorbent article as set forth in claim 12 wherein the *Yucca* species extract comprises *Yucca schidigera*.

20. (Currently Amended) An absorbent article as set forth in claim 19[[12]] wherein a composition comprising said *Yucca schidigera* is held by the absorbent body.

21. (Original) An absorbent article as set forth in claim 20 wherein the composition comprises at least about 0.001 percent *Yucca schidigera* by weight.

22. (Original) An absorbent article as set forth in claim 21 wherein the composition comprises at least about 0.01 percent *Yucca schidigera* by weight.

23. (Original) An absorbent article as set forth in claim 20 wherein the composition comprises less than about 1.0 percent *Yucca schidigera* by weight.

24. (Previously Presented) An absorbent article as set forth in claim 1 wherein a composition comprising said *Yucca*

KCC 4742 (K-C 14,442A)
PATENT

species extract is positioned between the body-facing surface of the liner and the outer cover.

25. (Previously Presented) An absorbent article as set forth in claim 24 wherein the composition comprises at least about 0.001 percent *Yucca* species extract by weight.

26. (Previously Presented) An absorbent article as set forth in claim 25 wherein the composition comprises at least about 0.01 percent *Yucca* species extract by weight.

27. (Previously Presented) An absorbent article as set forth in claim 24 wherein the composition comprises less than about 1.0 percent *Yucca* species extract by weight.

28. (Previously Presented) An absorbent article as set forth in claim 1 wherein the *Yucca* species extract comprises *Yucca schidigera*.

29. (Original) An absorbent article as set forth in claim 28 wherein a composition comprising said *Yucca schidigera* is positioned between the body-facing surface of the liner and the outer cover.

30. (Original) An absorbent article as set forth in claim 29 wherein the composition comprises at least about 0.001 percent *Yucca schidigera* by weight.

KCC 4742 (K-C 14,442A)
PATENT

31. (Original) An absorbent article as set forth in claim 30 wherein the composition comprises at least about 0.01 percent *Yucca schidigera* by weight.

32. (Original) An absorbent article as set forth in claim 29 wherein the composition comprises less than about 1.0 percent *Yucca schidigera* by weight.

33. (Original) An absorbent article as set forth in claim 1 wherein the article is a diaper.

34. (Original) An absorbent article as set forth in claim 1 wherein the article is an infant care product.

35. (Currently Amended) A method of inhibiting production of ammonia from urine held adjacent a wearer's skin by an absorbent article, said absorbent article comprising a permeable liner having a body-facing surface oriented for facing a wearer when the absorbent article is worn and an absorbent-facing surface opposite the body-facing surface, an outer cover, and an absorbent body positioned between the liner and the cover for absorbing body waste penetrating the liner, said method comprising applying a composition including a Yucca species extract between the absorbent-facing surface of the liner and the outer cover to the article.

KCC 4742 (K-C 14,442A)
PATENT

36. (Currently Amended) A method as set forth in claim 35 wherein the composition applied between the absorbent-facing surface of the liner and the outer cover ~~to the article~~ comprises at least about 0.001 percent Yucca species extract by weight.

37. (Currently Amended) A method as set forth in claim 36 wherein the composition applied between the absorbent-facing surface of the liner and the outer cover ~~to the article~~ comprises at least about 0.01 percent Yucca species extract by weight.

38. (Currently Amended) A method as set forth in claim 35 wherein the composition applied between the absorbent-facing surface of the liner and the outer cover ~~to the article~~ comprises less than about 1.0 percent Yucca species extract by weight.

39. (Previously Presented) A method as set forth in claim 35 wherein the Yucca species extract comprises *Yucca schidigera*.

40. (Currently Amended) A method as set forth in claim 39 wherein the composition applied between the absorbent-facing surface of the liner and the outer cover ~~to the article~~ comprises at least about 0.001 percent Yucca species extract by weight.

KCC 4742 (K-C 14,442A)
PATENT

41. (Currently Amended) A method as set forth in claim 40 wherein the composition applied between the absorbent-facing surface of the liner and the outer cover ~~to the article~~ comprises at least about 0.01 percent Yucca species extract by weight.

42. (Currently Amended) A method as set forth in claim 39 wherein the composition applied between the absorbent-facing surface of the liner and the outer cover ~~to the article~~ comprises less than about 1.0 percent Yucca species extract by weight.
